

# Clocks, Thermometers and Accessories

## Formotion® Clocks and Thermometers

Satisfy the basic desire to know time and temperature with these good looking, quality instruments. The 1.55" diameter housings are available in black or silver, with faces in black or white. They're waterproof and freeze-resistant. Clocks have accurate quartz movement and use long-lasting button cell battery (included). Thermometers read Fahrenheit. Each includes a chrome mounting tab for a variety of mounting options. **Handlebar mount brackets sold separately. Sold each.**

## Supperleggera Auto

The Superleggera line was designed specifically to evoke the passion of such fine instruments from the past such as Jaeger Italia and Smith Clocks. With muted logo elements and attention to fine details such as period pointers and raised lettering and numerals, Formotion has captured the past in wonderful detail. Available in black or white clocks and ambient temperature thermometers, these instruments will look simply stunning on any automobile from Alfa's to Sunbeams. Simple, elegant and easy to read - Superleggera!

## Formotion® Signature Series™ Stainless Steel Clocks and Thermometers

All Formotion®/Citizen Signature Series™ clocks and thermometers are rated to 5 ATM waterproof and are the only gauges on the market with this rating! The Formotion® thermometer is the first fully encapsulated oil filled thermometer! It offers full coil and pointer isolation against vibration. This mounting system is impervious to both weather and temperature and will never wear out or need to be replaced. Each full mount unit can be run with or without the beauty ring, depending on the users design preference. The Stem and Barrel™ system also makes chores like changing the battery a snap; giving easy access to the gauges' internals. **Sold each.**
