# Formotion Provides On-Board Clock and Thermometer To Victory Motorcycles

## Customized Clock and Thermometer Enhance Victory's Accessory Line

---

**Mill Valley - California, August, 2004:** Teaming with Formotion Products, Victory Motorcycles has announced new line of on-board clocks and thermometers that mount to the switch cover on a Vegas™, Kingpin™, Touring Cruiser and V92C. Made from 316L Stainless Steel and polished to a mirror finish, each gauge is waterproof rated up to 5 ATM (165 feet of water pressure) and sports a K1 crystal lens for superior scratch and shatter resistance. The Victory clock uses a quality Citizens movement, and the thermometer uses Formotion's exclusive liquid-filled technology to make the gauge impervious to vibrations.

Announced at their annual dealer show, and available in November, the clock (P/N 2875169) and thermometer (P/N 2875168) feature the Victory white face and lettering. They can also be mounted directly to the handlebar by using the (optional) 1-inch Chrome Clamp Kit. Both gauges will be sold through any Victory dealer worldwide or through Victory's web site.

Introduced in the summer of 2000, The Formotion Clock™ and The Formotion Thermometer™ have become the gauges of choice for riders around the world. Today, Formotion has become the quality leader in all high-endurance powersport vehicles with more than 100,000 units in use on such vehicles as boats, snowmobiles, golf carts, autos, trucks, planes and motorcycles. In addition to selling its own line, Formotion Products also provides motorcycle clocks to the Harley Davidson Motorcycle Company on an OEM basis. For more
